Experience

Housecall Pro, Software Engineer I

Remote

April 2021 – Present

Build reporting features and data visualizations for home-service professionals to easier access their most business critical KPIs and show them how they can improve their businesses through the data Housecall Pro captures for them. Represent the Reporting Team at Frontend Guild meetings where frontend architecture decisions are made.

Thesis, Conversion Rate Optimization Specialist

Brooklyn, NY

June 2018 – February 2020

Managed landing page conversion rate optimization for eight clients. Partnered with Thesis' design and engineering teams to ensure smooth implementation of landing pages and features built to drive conversion. Worked with lead front-end engineers to develop a company-wide QA process for new landing pages and features.

Education

Turing School of Software and Design, Certificate in Frontend Engineering

Remote

June 2020 – March 2021

Built, tested and deployed over 15 dynamic web applications. Designed and developed an application called [National Parkfinder](#) that won 1st place in the school-wide Demo Competition.

St. Lawrence University, Bachelor of Arts Degree

Canton, NY

August 2011 – May 2015

Graduated Cum Laude with combined major in English and Environmental Studies and a minor in African Studies.
